

Dr. Kolbe
Vogelschutz mit Durchblick

Manual - birdpen:

- The strips are to be attached to the outside of the window-pane
- please clean properly before using the birdpen
- birdpen is easy to open, if you press the cap sideways
- put the birdpen at right angle with front-side onto the glass and mark slowly at constant speed to the lower edge of the window-pane (Illust. 1)
- distance between the stripes and also to the window-frame should be around 8 cm
- avoid double marking
- to remove just use standard glass- cleaner
- after using please close properly and store dry and cool
- do not use below 10° C
- protect of use of children
- if coated windows consult manufacturer
